THE THIRTY-FIRST IS A FIELD DAY

Legislature Devotes Lots of Time to Pinkham, but Gets Through a Fair Amount of Business Besides That.

Both Houses of the Legislature were mainly occupied with the President of the Board of Health yesterday. The matter came up in a different way in each House, but the amount of it was that Pinkham was the center of interest. For the rest, the session was given over to routine matters, and a fair amount of business was done.

LEGISLATURE--THIRTY-FIRST DAY.

THE SENATE.

The Senate held a short session yesterday, but it was long enough for Achi to introduce a resolution asking the Governor to remove President Pinkham of the Board of Health from his position because that official had failed to enforce the segregation laws at Molokai during the legislative visit to the Settlement. On Achi's motion, the resolution went to a special committee consisting of Achi, Wilcox, Dickey and Woods.

On Achi's motion, also, the Tantalus Park bill was raised from the table and put on the order for today. This followed the presentation of a petition from the Teachers' Association favoring the bill.

Senate Bill 89, licensing emigrant agents, passed second reading and will be read for the third time today. It was passed on a report of the Ways and Means Committee containing this significant paragraph:

"It is dangerous to the industrial interests of the Territory to have people constantly encouraging and enticing the laboring classes away from the Territory into other States and Territories." The report was adopted and the bill will be read for the third time tomorrow.

GIVE THE HOUSE A CHANCE.

The House was given a new conference on its bill to fix the pay of laborers, Gandall, Paris and Achi being named as Senate conferees.

The Ways and Means Committee reported favorably on Alice F. Beard's request for \$2,400 for the Kona orphanage, and unfavorably on House Bill 98, allowing district attorneys to practice before Circuit courts on appeal. Bill 98 went on the table.

From the conference committee on House Bill 7, to hold terms of Circuit court at Kau, Hewitt reported in favor of adhering to the Senate amendments. The report was adopted. Six Senators voted against it.

Dickey introduced a bill to amend certain sections of the Revised laws of Hawaii, Bishop another to amend those sections relative to foreign corporations and Dowsett introduced a bill to amend the law relative to license for fire arms. All these passed first reading.

House Bill 84, defining the widow's right of dower on second reading was sent back to the Judiciary Committee to be corrected on the point as to waiver of the widow's rights.

House Bill 62, providing for cash payment of costs of court on appeal, was laid on the table on second reading.

Senate Bill 23, the Hilo high school bill which Brown had called for earlier on a question to the Loan Committee as to what had become of it, went to the Hawaii delegation after some discussion.

THE HOUSE.

"Pinkham" and "Board of Health" were the words most often used in the House of Representatives yesterday, all of yesterday in fact, for the greater part of the morning was taken up in discussion of the different letters from President Pinkham to the House. As a result there followed in the afternoon when Pinkham was put through a steady grilling for three hours.

The balance of the morning work was strictly routine.

STENOGRAPHERS' SALARIES.

The petition of the judges of the Circuit court of the First Circuit and of members of the bar for increasing the pay of court reporters to \$200 was laid on the table to be considered with the appropriation bill.

The Senate notified the House of the passage of the following measures: House Bills 83, 73, 82, 79; Senate Bills 69, 91.

The Conference Committee reported

on Pali's bill relating to terms of court with a slight amendment so that no December term should commence during the holidays. Senator Woods did not concur. The report was unanimously adopted by the House.

PUBLIC LANDS REPORT.

The Committee on Public Lands and Internal Improvements reported on the following matters:

For a road from Volcano road to 13-mile road, \$3000, (Lewis). Recommended.

For roads at Waialeale and Waialeale, Kau, \$3000; court house at Waialeale, W. Kau, \$1500, (Greenwell). Recommended.

For the Waialeale road, \$25,000. Recommended.

For steps at Hoopuloa wharf, \$100, (Kaniho). Recommended.

For repairing the keeper's cottage at the Mausoleum, (Mabelona). Recommended.

On the proposed addition to Aala Park:

Price of S. C. Allen Estate land, \$14,000.

Price of Justice Frear's land, \$19,320.

Manuel Quadros refuses to sell but would exchange.

THE MOLOKAI VISIT.

The Health Committee submitted a long report on the recent visit to the Settlement on Molokai. The report reviewed the fact that it was agreed with the Board of Health that a large number of passes to the enclosure were to be granted, a smaller number to the Superintendent's grounds and a still smaller number to allow the committee and legislators free facility for investigation.

"All parties were to conform strictly to the rules and regulations of the Board of Health," said the report. "To aid in carrying out these agreements through the courtesy of High Sheriff Henry, nine officers of the Honolulu police force accompanied your committee and we are glad to say carried out their orders to the letter."

The committee recommended the granting of the following requests:

1. An assistant physician.
2. A poi making machine.
3. Increase of clothing allowance to \$3 a quarter.

4. Refusal of wine and beer license.

5. A \$400 annual appropriation for amusement of lepers.

Need of better water works and road improvements were touched upon and the necessity of a home for non-leprosy boys is dealt with.

The report spoke with enthusiasm of the tact and ability of Superintendent McVeigh and of the good will borne him by the inmates.

The report will be printed.

TANTALUS PARK.

(Continued from page 5.)

decide, and as the measure is of far-reaching influence, it is one which should have careful consideration.

6. There is one other very urgent reason why the slopes of Tantalus should be set aside as a park, and that is that the Makiki Valley, the two branches of which head in the proposed park, is a part of the Honolulu Reservoir system. Some years ago the Government, by condemnation proceedings, removed all the people living in the lower end of Makiki Valley, above the reservoir, that the sources of supply should not be contaminated. The drainage of the houses on Tantalus is into the upper part of this valley. In the opinion of sanitary engineers, the Government should in the beginning have reserved the whole watershed and certainly should not allow further houses to be built. Each additional source of contamination is a danger to be guarded against. Those who have studied the situation are urging not only that the land included in the proposed park, but also that all of the land which drains into the Makiki stream, shall be reserved from further homesteading. If Tantalus is set aside

Tumors Conquered Without Operations

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in Cases of Mrs. Fox and Miss Adams.

Fannie Fox

Miss Luella Adams

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by excessive menstruation accompanied by unusual pain extending from the ovaries down the groin and thighs.

If you have mysterious pains, if there are indications of inflammation ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound right away and begin its use and write Mrs. Pinkham of Lynn, Mass., for advice.

Read these strong letters from grateful women who have been cured:

Dear Mrs. Pinkham:—(First Letter.) "In looking over your book I see that your medicine cures Tumor of the Uterus. I have been to a doctor and he tells me I have a tumor. I will be more than grateful if you can help me, as I do so dread an operation."

—Fannie D. Fox, 7 Chestnut St., Bradford, Pa.

Dear Mrs. Pinkham:—(Second Letter.) "I take the liberty to congratulate you on the success I have had with your wonderful medicine."

"Eighteen months ago my monthly stopped. Shortly after I felt so badly I submitted to a thorough examination by a physician, and was told that I had a tumor on the uterus and would have to undergo an operation."

"I soon after read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed, the tumor is entirely gone. I have again been examined."

—Miss Luella Adams, Colman Hotel, Seattle, Wash.

Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Woman's Ills.

by the physician and he says I have no signs of a tumor now. It has also brought my monthly around once more; and I am entirely well. I shall never be without a bottle of Lydia E. Pinkham's Vegetable Compound in the house."

—Fannie D. Fox, Bradford, Pa.

Another Case of Tumor Cured by Lydia E. Pinkham's Vegetable Compound.

Dear Mrs. Pinkham:—

"About three years ago I had intense pain in my stomach, with cramps and raging headaches. The doctor prescribed for me, but finding that I did not get any better he examined me and, to my surprise, declared I had a tumor in the uterus."

"I felt sure that it meant my death warrant, and was very disheartened. I spent hundreds of dollars in doctoring, but the tumor kept growing, till the doctor said that nothing but an operation would save me. Fortunately I corresponded with my aunt in the New England States, who advised me to try Lydia E. Pinkham's Vegetable Compound before submitting to an operation, and I at once started taking a regular treatment, finding to my great relief that my general health began to improve, and after three months I noticed that the tumor had reduced in size. I kept on taking the Compound, and in ten months it had entirely disappeared without an operation, and using no medicine but Lydia E. Pinkham's Vegetable Compound, and should give confidence and hope to every sick woman."

Such unquestionable testimony proves the value of Lydia E. Pinkham's Vegetable Compound, and should give confidence and hope to every sick woman."

Mrs. Pinkham invites all ailing women to write to her at Lynn, Mass., for advice.

PASSES THE BUCK UP TO THE LEGISLATURE

High Sheriff Henry Tells the McCandless Committee all There is to Know About Affairs in Iwilei.

"Make any suggestion for regulation that you please, gentlemen," said High Sheriff Henry yesterday to the McCandless Iwilei committee. "My hands are free to carry it out."

In those words the High Sheriff passed the buck to the legislature yesterday afternoon. Mr. Henry had been called before the committee and asked to explain how it was that he had centered the social evil in a certain quarter of the city, and how it was more over that Dr. Cooper had the monopoly of the examination of the women, to his great profit.

The Sheriff said that he had given the women no orders to go into a certain quarter. He had arrested them when they made themselves apparent in the residence sections, and they had gradually been driven to Iwilei, being more and more concentrated as they had learned that they would not be allowed in any place where their presence was offensive.

The Sheriff admitted that he had no warrant in law for what he had done. But he had been confronted with a condition. And he had followed his best judgment in meeting it until the legislature should meet and consider whether it was best to pass laws to regulate the matter. He had consulted the Governor, many ministers and the United States District Attorney. The action had been the result of joint councils.

As to Dr. Cooper, there was no compulsion upon the women to be examined by him. They were free to go to any reputable physician. But he had instructed his officer to see that the women had certificates from a physician, and when they had not to report to him. He had, at first, appointed Dr. Cooper a Sanitary Inspector for the police department, but on the advice of the Governor had revoked the appointment. Then Dr. Cooper had opened an office at Iwilei.

As nearly as the Sheriff knew, there were from 100 to 126 women in the place, and these were examined once a week at a cost of \$1.00 each. The Sheriff did not know who owned the stockade property, but he himself owned some property there, including the site of Dr. Cooper's office. This property, however, was leased a long time ago to a man in Bishop's bank, and the Sheriff had nothing to do with the management of it. He did not know that rents were higher in some parts of Iwilei than in others.

The whole thing was in the hands of the Legislature. He had done the best he could. It was the turn of the members of the House and Senate to act.

as a park, and if the policy of the Department of Public Works is adhered to, danger of increased contamination is avoided. The necessity of safeguarding this stream is alone a sufficient reason why the park should be created.
